CTE in Action!

Jordyn Vader NEWTech Skill Center

It is with great pleasure and delight that I write this letter of recommendation for Jordyn Vader. I am her Graphic Design and Digital Arts teacher from NEWTech Skill Center and I have had the pleasure of working with Jordan this year.

Jordyn is self-motivated, disciplined and resourceful. She learns quickly, works well with others and pays attention to detail. Jordyn is creative and willing to try new ideas. She volunteers to create designs wherever possible and is willing to try new skills. Jordyn is resourceful, and initiates researching new ways to solve design problems.

Jordyn is an excellent student and leader, in and outside of the classroom. She is our ASB representative and has led our class and kept us involved in community service projects and participates in school activities. As a leader in the class, she helps other students and helps fill design orders whenever possible. Jordyn shows maturity and has learned the production equipment such as printers, presses, vinyl cutter, and helps produce nametags, creates logos, posters, T-shirts and mugs.

Her skills include; design and editing using the Adobe Creative Suite, advertising, promotion, photography, design and layout, and desktop publishing... that is quite an array of valuable skills desired in today's job market.

I highly recommend Jordyn for whatever direction she chooses. Her work ethic and people skills will bring her success and her ethics will benefit our community immeasurably.
