

- Personal
 - Good news, in my last appointment, I was showing no signs of cancer, next check will be this fall. For any that this is new news, I have been on a yearlong journey leading up to the removal of a kidney, followed by immunotherapy once a month. In February I had an adverse reaction to the treatment and was in intensive care for 5 days in late February...bringing me to the good news I started with.
 - As a result, I truly have a great team at the office (WA-ACTE) and current and former officers that have keep the 'trains' running while I have been on limited participation.

- Association Activities
 - Committee work
 - Legislative
 - Jesse Taylor was 'boots on the ground' for us during my absence. The final WOVE gives an update as to our association's activities.
 - Professional Development
 - Refer to full update from committee report.
 - FAME
 - Refer to full update from committee report.
 - CTE related Activities
 - WACTA
 - Washington State School Funding Coalition opportunity
 - OSPI Accounting Committee engagement on Code(s) 23 & 25

- Professional
 - The officer team, and staff are making progress on a Succession Plan for the association to be prepared for changes in staff in the future.
 - We all know change is inevitable that folks will move on in a planned manner. But heaven forbid there is an emergency or unanticipated change – we do not want the association and officers at the time to be without the tools and guidance to move forward.
