

SkillsUSA specifically has over 60 VIPs attending including the workforce board, the state college board and OSPI to see what we are doing. We have over 95 contests held live on site and are proud to house over 1400 technical students on site this year.

I had the great opportunity to speak at the workforce board which was wonderful to see some of the feedback as I spoke to CTE across ALL CTSOs and the need for the support from each of them in their respective roles. Several of them are now planning to be on site this year 😊

I will forward our press release for the event as well that went out for SkillsUSA specifically, thanks! It was in the OSPI mailer as well
