# President-Elect

### **1. General Thoughts:**

The hand of WAACTE was pushed to go to an all-online conference and so much was accomplished by the Executive Committee with excellent leadership from Tim, Shani and Lew. The build it while you're flying method has been hard work and its working as the Office Staff has really hustled to stay up with the needed jobs and fixes to make it all happen. The proof will be in the conference.

### **2. Strategic Plan Activities:**

Continual PD from Shani and Tim has been timely and certainly the focus of everyone's time

Had to drop the onsite auctions for this year at summer conference.

### **3. Matters of Interest:**

Everything is interesting now! How to online and make online a helpful tool in the future is where our current focus is.

### **4. Executive Committee Activities:**

Weekly meetings since the middle of March to think, react and make plans for the online conference
