Monday, August 7
Bid Sheet
Deadline for CTE Student Scholarships is Two Weeks Away!
The Horatio Alger National Career and Technical Scholarship Program is offering 1,020 scholarships of up to $2,500 each to students pursuing a CTE certificate or degree at a community college. ACTE is proud to support this initiative and we encourage your students to apply by the June 15 deadline.

The State Board of Education voted to approve the Agriculture Power and Technology and Viticulture Frameworks as equivalent to science at their last meeting. These two frameworks will join the 36 approved equivalency frameworks available for use. Both frameworks were cooperative products between learning and teaching, CTE instructors, business and industry and post-secondary partners. Our focus for equivalency frameworks will emphasize professional learning in the future, however the SBE did express an interest in establishing additional equivalency frameworks. If you have a suggested CIP code or course for consideration, please let me know.

Additionally, Trent Ball, Agriculture Program Chair at Yakima Valley Community College wanted to make sure that educational leaders are aware that Yakima Valley Community College is a willing articulation partner for the Viticulture Course. Please contact him at tball@yvcc.edu if you have any questions.
