## Did you miss this?

Welcome Washington ACTE to Amazon's Fulfillment Center Tour

From online store to doorstep, discover how computer science, state-of-the-art engineering, and incredible people deliver your orders at Amazon. Sign us to bring your classroom or come on your own today! Tours are free, live, interactive, and open to all.

A virtual field trip for every future engineer, entrepreneur and robotics technician:

- Computer-science focused tours**  
Discover how algorithms, machine learning, and more power our fulfillment process.
- Interact in real-time**  
Solve curiosity with interactive tours where students will get their questions answered live by an Amazon tour lead.
- Workforce exposure**  
Interact and ask questions to Fulfillment Center Tour Guides and meet the engineers behind the technology.

Join us on January 13th at 3:30 PM PT to learn more about this exciting learning opportunity and more.

### New Student Video Contest

ACTE, host of CTE Month, and NASA HUNCH are excited to announce the 2021–22 student video challenge, showcasing CTE and project-based learning programs in high-demand career fields on Earth and in space. This year's theme is "How Can Space Exploration Solve Climate Change?" Students are asked to showcase CTE courses and careers to help us understand and provide solutions to global warming and climate change. The deadline to submit a two-minute video is **April 1**.

**[Wash. veterinary, nursing students partner at clinic](#)**

Veterinary and nursing students at Washington State University teamed up recently to give people and pets free checkups and vaccinations, and they hope to raise the funds needed to hold a similar event next year. The clinics help the community while giving students real-world experience, says veterinarian Raelynn Farnsworth, the College of Veterinary Medicine's interim associate dean for clinical programs.

**[Governor tours college's career development programs](#)**

Washington Gov. Jay Inslee recently toured three career development programs at Walla Walla Community College. Students helped to showcase the programs in agriculture, enology/viticulture and energy systems technology.
